

GENERAL INFORMATION

Founded in 2002 and pioneering introduction of EU standard modern uPVC windows and doors to Vietnamese market, Eurowindow has made a door revolution and opened a “new era” for Vietnamese houses. From using doors for shielding from fire-rated doors and rain, Eurowindow has provided Vietnamese consumers with a new concept of “soundproofing and thermal insulation doors”, creating high-quality living spaces for the users.

From uPVC windows and doors, Eurowindow has developed more other lines of products, met diversified demands of the consumers such as aluminum doors, curtain wall systems, fire-rated timber doors, automatic doors, roller doors, hydraulic doors, glass products, wood floors and interior products...

Structured by uPVC/ aluminum/ timber profiles combined with synchronous double gasket system, glass boxes and metal hardware fittings, Eurowindow's modern doors can turn and tilt in multi-ways and be integrated with many uses, dustproof and noise-proof and energy saving.

Thanks to application of advanced technologies in production, Eurowindow branded products have met criteria

and been safe to the users' health, environmentally friendly, energy saving and conformable to the green construction development trend in Vietnam and in the world.

During its foundation and development, Eurowindow has been active and sensible to the market and taken its strategic orientation of sustainable development as “a guideline” for all production and business activities. In a new decade, Eurowindow has vigorously changed through repositioning and changing brand identifier to create difference and transmit the company's new development orientation.

The company's new logo symbolizes for everlasting windows, represents persistence in Eurowindow development orientation and confirms its flexibility towards incessant changes in tendency and technology.

Its slogan of “PIONEERING, CONSTRUCTION AND COMPANION” has significant message in the changing process, built a Eurowindow image of being ready to advance and bring superior experiences for the consumers and the society's sustainable values.

Eurowindow has PIONEERED in new technology application, provided diversified solutions to complete building materials. From its successes in pioneering in providing European standard modern doors and windows for Vietnamese market, Eurowindow has continued to hold its spirit, not only meeting its customers' demands by quality products but also creating consumption trend.

Eurowindow branded products has been contributing to construct hundreds and thousands of the works nationwide, such as houses for millions of the families, office buildings,

apartment buildings, hotels, bank buildings, hospitals, schools and international standard resorts ..., and national key products such as National Assembly Building, the Government's building, National Planning Exhibition, Ministry of Foreign Affairs and international airports ...

Eurowindow has always COMPANIONED with customers, partners and the whole society to move towards the development road. For the customers, Eurowindow has persistently aimed at the best solutions, increased safety and optimize cost efficiency and ensured Eurowindow

CERTIFICATES AND AWARDS

Eurowindow was honorably awarded the Second Class Labor Medal by the President of Vietnam

Top 10 Vietnam Golden Star Award 2011 and Top 10 Vietnam Golden Star Award granted by Vietnam Young Business Association in 2004, 2006, 2007, 2008 and 2009

With achievements in production and business, Eurowindow was awarded the Certificate of Merit by the Government's Prime Minister

Eurowindow obtained the National Brand for many consecutive years

Award for Top 10 key products of Hanoi city awarded by Hanoi Department of Industry and Trade

Eurowindow reached the top 10 representative enterprises of Vietnam in 2021

Eurowindow was awarded Top 10 famous brands of Vietnam in 2021 by the Vietnam Intellectual Property Association

Eurowindow is one of the 500 largest enterprises in Vietnam in 2021

Insulating aluminium products were rated Number 1 favored Vietnamese products by Consumers 2021

Eurowindow received Certificate of “Transparent and reliable enterprise – Vietnam Goods in 2019 of Vietnam Intellectual Property Association and Association of Vietnam Retailers

Eurowindow was granted Top 10 Vietnam Famous Brands Award

Eurowindow is the only enterprise in glass aluminum doors and curtain wall systems and honored as Top 100 best workplaces in Vietnam announced by Anphabe

Eurowindow is in Top 50 most attractive employer brand in Vietnam 2019 announced by Anphabe

Eurowindow won the title of Vietnam High-quality Goods elected by the consumers for 12 consecutive years

Eurowindow won a Golden Cup for Vietnamese typical and creative enterprise in 2019

BSI granted Eurowindow with a Certificate for Occupational Health and Safety Management System ISO 45001:2018

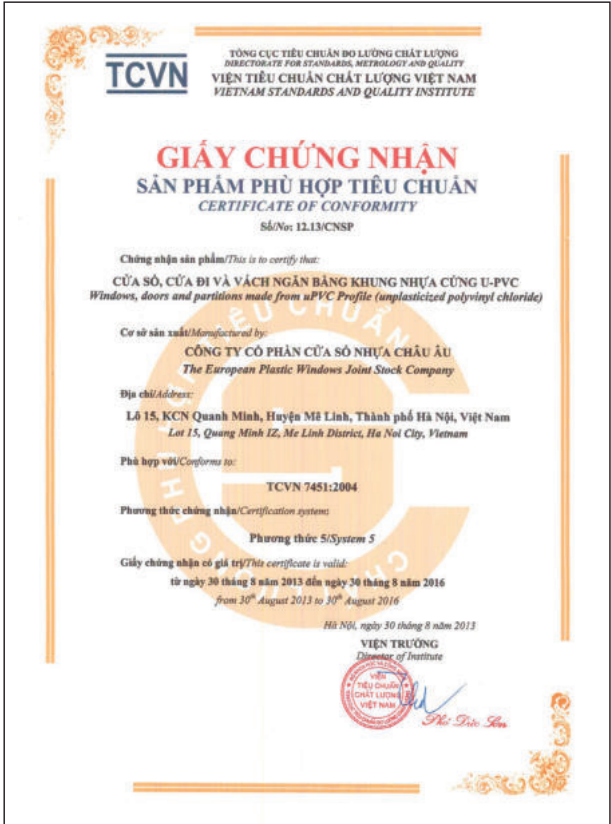

Eurowindow won “International Brand” Award by Asia – Pacific Brand Fund (APBF)

Center for Scientific Research, Consultancy and Technology
Transfer of Fire Prevention and Fighting and Resecue –
Ministry of Public Security certified Eurowindow timber doors
under the standards on fire prevention and fighting

The Ministry of Science and Technology award “Vietnam
Quality Gold Prize” in 2004, 2005 and 2007

Certificate issued by Vietnam Quality Standard Insitute for
Eurowindow u-PVC windows and doors in accordance with
Vietnamese standards

Certificate No.KM 564850 and KM 564851 issued by Kitemark
(UK) for Eurowindow glass products under Kitemark quality
standards

Eurowindow won Top 10 Asia – Pacific Integration Typical
Brands 2017

Certificate of Environmental Management System – ISO
14001:2004 issued to Eurowindow by BSI (UK)

Certificate of Quality Management System issued to Eurowindow by BSI (UK) under ISO 9001: 2008

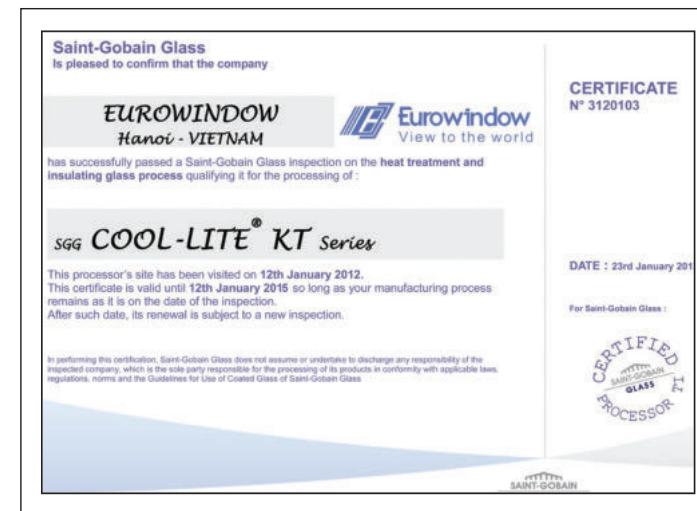

Certificate issued by TÜVRheinland (Germany) for Eurowindow safe tempered glass products

Certificate issued to Eurowindow by PPG (America) for PVDF water paint under PPG's technical industrial standards

Certificate issued to Eurowindow by Saint Gobain Glass Group (Republic of France) for SGG COOL - LITE KT Series tempered glass

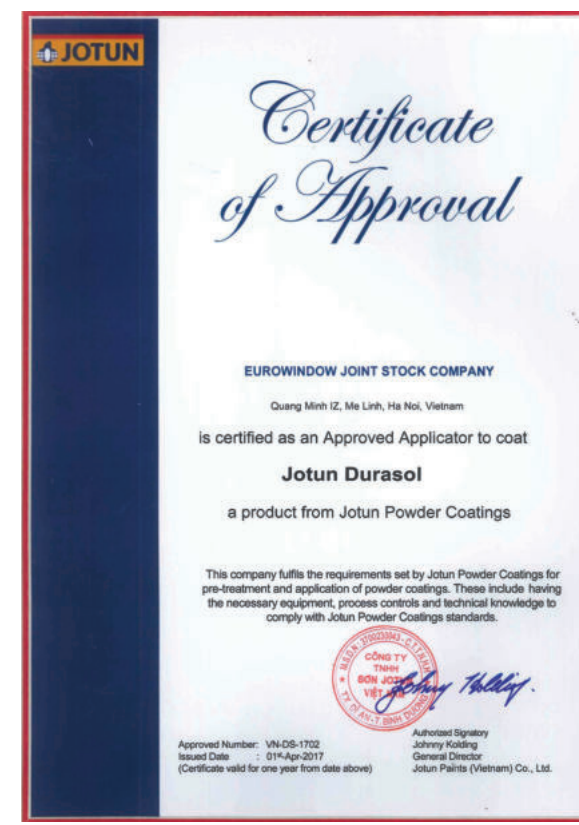

Certificate issued by Tiger Paints (Austria) for Eurowindow coating line and powder paint management system under the global standards

Certificate issued by Kommerling (Germany) certifying that Eurowindow is the only uPVC window and door manufacturer using Profile of Kommerling

Certificate issued by Kommerling (Germany) certifying that Eurowindow uPVC windows and doors are in conformity with the international quality standards

Certificate issued by Jotun Paints for Eurowindow coating line under the 30-year global warranty standards

Certificate issued by AkzoNobel Vietnam for Eurowindow quality management system and aluminum painting process under Interpon D standard and AAMA2605-05 with 30-year warranty period

With quality and diversified types of materials, Eurowindow products conform to the consumers and satisfy requirements of the construction works such as villas, apartment buildings, office buildings, hotels and resorts and projects of trade centers, airports and schools ...

MAIN PRODUCTS

uPVC WINDOWS AND DOORS

- Tilt & turn inward opening windows
- Turn inward opening windows
- Turn outward opening windows
- Sliding windows
- Top hung windows
- Tilt-turn fitting with parallel action windows
- Inward tilt-turn opening doors and windows
- Casement doors with multi-point lock
- Sliding entrance doors
- Folding entrance doors
- Single sash entrance doors, internal doors
- Balcony doors
- Glass partitions, uPVC partitions, decorative and specialty glass

ALUMINUM WINDOWS AND DOORS AND CURTAIN WALL SYSTEMS

- Stick curtain wall system
- Semi – Unitized curtain wall system
- Spider curtain wall system
- Unitized curtain wall system
- Skylights
- Aluminum windows and doors

TIMBER DOORS

- Natural timber doors
- Fire-rated doors
- MDF and HDF timber doors
- Composite timber doors
- Plastic timber doors
- Wood floor

GLASS PRODUCTS

- Fully tempered glass
- Heat-strengthened glass
- Laminate glass
- Laminate tempered glass
- Insulating glass units
- Decorative glass

CURTAIN IN THE INSULATING GLASS UNITS

ROLLER DOORS

FIRE-RATED DOORS

AUTOMATIC DOORS

- Auto-sliding doors
- Three-wing or four-wing automatically revolving doors

INTERIOR PRODUCTS

- Wall-mounted products
- Pieces
- Décor
- Timber floor
- Kitchen equipment

Eurowindow uPVC windows and doors are made of profile uPVC bars of chamber patterns with reinforced steel to enhance load-bearing ability, synchronous hardware fittings with multi-point bolts, 3D hinges, specialized locks combined with double gasket system and argon filled glass boxes to ensure air-tightness, soundproofing and thermal insulation. Eurowindow uPVC product ranges are mainly windows, doors and partitions conformable to the works such as hotels, villas, apartment buildings and private houses

Eurowindow products have more outstanding advantages than the products made of traditional materials such as soundproofing, thermal insulation, strength, load-bearing ability, no bending, no shrinkage, power saving, less maintenance cost and long-term economic efficiency for the users, especially anti-oxidization or anti-smearing in solar radiation.

To better meet customers' requirements, Eurowindow has gradually diversified and localized its product ranges to reduce prices but ensure their quality. For uPVC doors, besides Eurowindow products produced of materials and hardware fittings imported from European famous firms (Profiles of Kommerling and hardware fittings of G-U, Roto, Aubi...), Eurowindow has designed Eurowindow profiles for Asiawindow uPVC door ranges.

The curtain wall systems are mainly designed under Unitized, Stick, Semi Unitized and Spider curtain wall systems. These products are used for Hi-tech architectural works such as trade centers, apartment buildings and office buildings.

Aluminum has lightweight and high strength and used to reduce load of the whole structure than other materials. Aluminum profiles have thermobreak combined with insulating glass units, laminated glass, fully tempered glass and heat dissipation glass to create beautiful and modern curtain walls with high strength, soundproofing and thermal insulation.

Eurowindow aluminum windows and doors and curtain wall systems minimizes most of the disadvantages of the normal glass aluminum products on the market thanks to European standard structure, high air-tightness and synchronous hardware fittings with turn opening and tilt & turn opening functions. The profiles are made of high-ranking aluminum alloy and their surfaces are electrostatically painted under the advanced technology; so, they meet standards on rigidity and high aesthetics. This is a really optimal solution for the curtain wall systems of the high-rise buildings. Besides, for private houses, Eurowindow has provided the market with Technal aluminum doors (manufactured by Hydro Building Systems Group – the Republic of France) and Eurowindow aluminum doors designed and manufactured by Eurowindow.

Eurowindow has provided the market with pass-through doors, entrance doors and wood floors manufactured of solid timber, natural timber, composite timber, MDF and HDF timbers which are forest timber and imported timber.

Timber source is carefully selected and treated (denatured) to increase stability and durability and minimize timber deformations in the climatic conditions of Vietnam. Advantages of Eurowindow timber doors are elegant, durable and friendly to the interior products.

Eurowindow fire-rated timber doors consist of hardwood frame, fire resistant Calcium Silicate Board, glass wool or rock wool for soundproofing, thermal insulation and anit-noise; fire resistant seal; rotary peeled veneer and PU top coat. In which, Silicate is non-toxic, odourless and dust free and has advantages of high durability, low conductivity and good soundproofing and thermal insulation.

Particularly, when temperature reaches 90oC, the fire resistant seal get melted and virtually turns into glue that tightly seals all gaps to stop spreading smoke, further the escape timing. Additionally, integral door accessories imported from Europe such as hinges, door closers, locking systems and handles ... are made of high performance steel which help the door to keep functioning even in extreme temperature conditions.

Eurowindow fire-rated timber doors are available in diversified colors, wood grain veneers, fire resistant classes of 60, 90 and 120 minutes.

Eurowindow roller doors have shutter system and most of the components are manufactured domestically and painted at the customers' request in Eurowindow's modern coating line with heavy-load bearing ability and smooth movement. Not using lubricant on two sides of the door rails prevents Eurowindow roller doors from dust and toxic substances generated from the lubricant because this lubricant has lead compounds which are harmful to the users' health. Eurowindow roller doors are integrated with barrier detector device so that the roller doors are reversed when they meet barriers.

Eurowindow auto-sliding doors have two types of two-wing and four-wing ones. Most of the mechanical parts are made of high quality aluminum alloy delivering perfect strength, durability, good-looking and lightweight. Glass partitions and sliding door wings using laminated or insulated glass (filled with inert gas in between) and double gasket system for wing frames provide thermal and sound insulation and energy saving. The four-wing auto-sliding doors allow opening all wings simultaneously to bring a wider space than the two-wing auto-sliding door. The electromotive, electrical and electronic systems are imported from European leading manufacturers or exclusively manufactured at Eurowindow' orders.

Eurowindow's glass center is located in Lot No.15, Quang Minh Industrial Park, Me Linh, Hanoi with modern and synchronous leading production line in Vietnam. Eurowindow's glass products are issued Kitemark certificate by BSi (British Standards Institution) under standards BS EN 12150- 1: 2000; BS EN 14449: 2005; BS EN 1279-2: 2002, EN 1863, ANSI Z 97.1-2004, ECER 43. Some typical glass products are fully tempered glass, heat-strengthened glass, insulating glass units, decorative glass and laminated glass.

Eurowindow glass products are used for curtain wall systems, partitions, hydraulic doors, railings, windows, doors, car doors, glass tables and glass bathrooms ...With safety, high mechanically load bearing capacity, aesthetics, ultraviolet elimination, soundproofing and thermal insulation, Eurowindow glass products are a perfect choice for civil and industrial projects and structures.

Together with good quality glass doors and partitions, since 2012, Eurowindow has continued to invest in manufacturing Screenline blind integrated in insulating glass units. Screenline is the world leading manufacturer of the screenline blind integrated in insulating glass units under Pellini Group (Italy). Eurowindow is the only manufacturer and distributor of Screenline blinds in Vietnam.

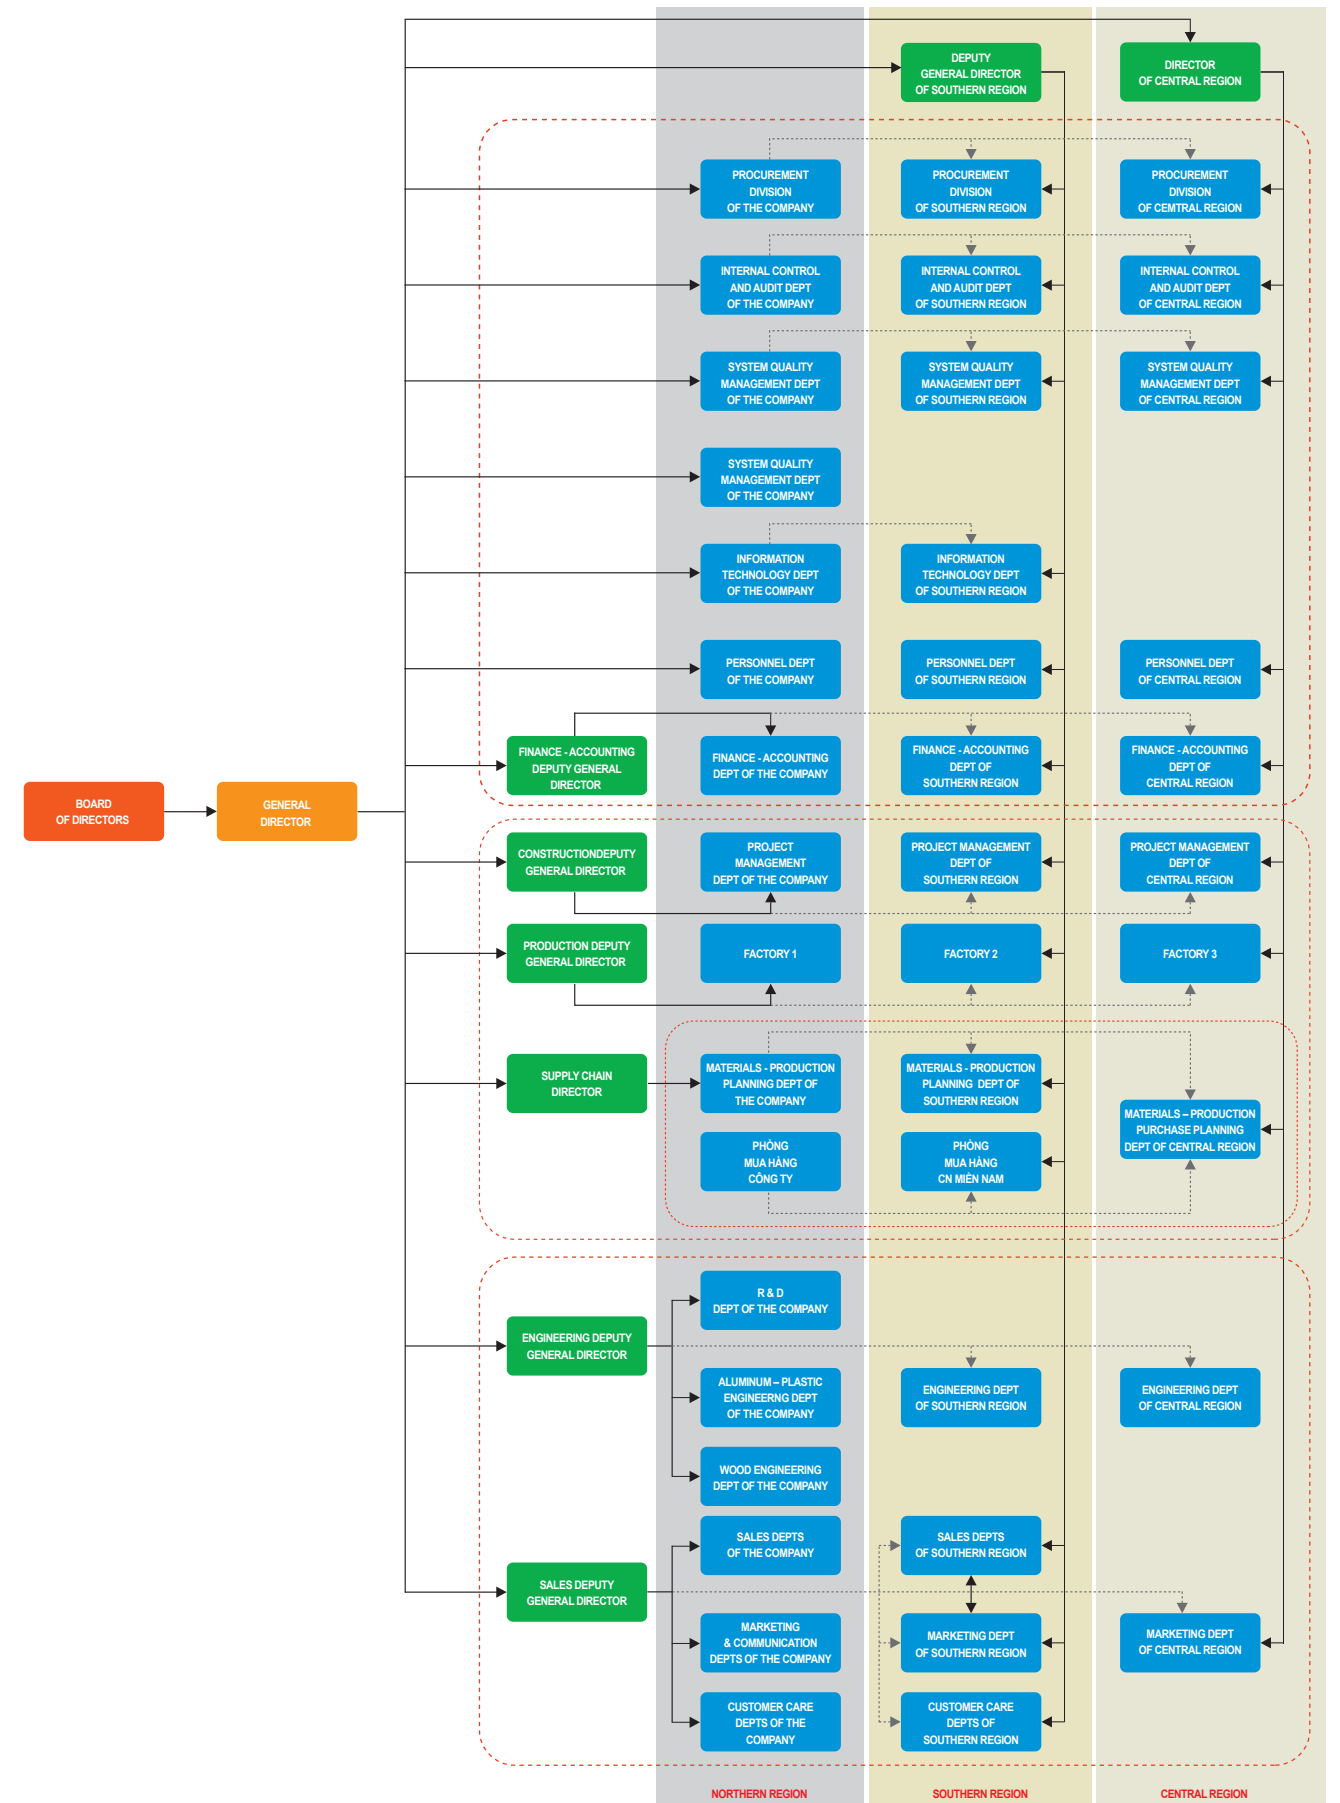

Surpassing advantages of ScreenLine blind integrated in insulating glass units are high durability and cooling power saving much more than traditional blinds as its ability of blocking solar energy. With various colors and control options, ScreenLine blinds is a perfect choice to improve aesthetics and add preeminent functions for the doors using Eurowindow insulating glass units.

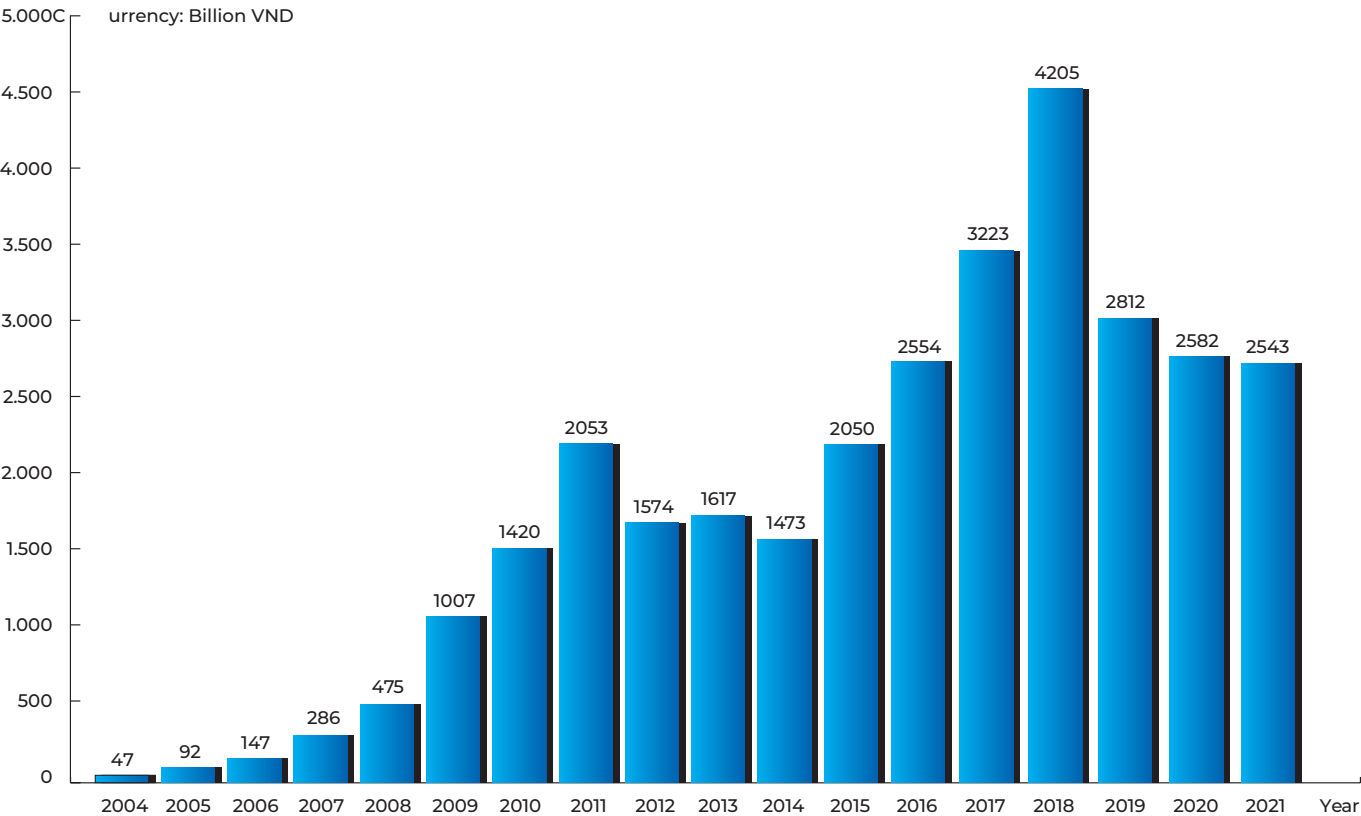

Eurowindow interior products use input materials (natural timber, MDF, HDF and MFC timber and composite timber) which are thoroughly selected, treated, soaked and dried according to the international standards so that it has high rigidity and durability, minimizing warping and shrinking with weather changes. The products using industrial wood/ laminate wood are coated with surface finish such as Melamine/ Laminate/ Veneer... with resistance to scratches, high strength, heat resistance and termite resistance ... and meet AC4 – AC5 standard on anti-scratch surface.

With unique, sophisticated and premier philosophy, Eurowindow interior products are manufactured in the synchronous and modern line. Interior drawings are created by taken architects and realized by experienced production and installation teams. The closed service process of “Design consultancy – Production organization – Installation – Warranty” helps the customers save time to the maximum to realize living spaces they have dreamt.

TYPICAL BUILDINGS USING EUROWINDOW PRODUCTS

Eurowindow

NATIONAL ASSEMBLY HOUSE

- Location: Hanoi
-
- Employer: New Ba Dinh Conference Hall and National Assembly Building Project Management Board
- Design Consultant: GMP Design Consulting Company (Germany)
- The work used more than 7,800 m2 of Eurowindow Stick curtain wall, Schueco profiles, fire rated glass partitions and 2,700 m2 of the fire-rated timber doors, fire and smoke resistant curtains, auto-doors, glass Skylight and Saint Gobain glass.
- Completion time: 10/2014

HEADQUARTER OF PUBLIC SECURITY DEPARTMENT

- Address: Ha Noi
- Investor: Public Security Department
- Architecture advisor: GMP
- Project using 36.700 m2 of Eurowindow Stick curtain wall,
- Completion time: 2011

Technal profile aluminum, inward and outward opening windows, sliding windows, inward and outward opening doors, Geze turn and tilt in doors. Low-e Saint Gobain glass

HEADQUARTER OF FOREIGN AFFAIRS DEPARTMENT

- Address: Ha Noi
- Architecture advisor: VNCC
- Project using Technal aluminum doors, inward and outward opening windows, entrance doors, glass partition
- Completion time: 2016

outward opening windows, entrance doors, glass partition

NATIONAL ASSEMBLY OFFICE

- Address: Ha Noi
- Investor: National Assembly Office
- Architecture advisor: CDC
- Project using 5.200 m2 of Eurowindow Stick curtain wall,
- Completion time: 2013

Technal profile aluminum, inward and outward opening windows, top hung windows. Low-e Saint Gobain glass

NATIONAL EXHIBITION CONSTRUCTION CENTER

- Location: Hanoi
- Employer: National Assembly Office
- Design Consultant: CDC
- The work used 4,100 m2 of Eurowindow Unitized and Stick curtain wall systems, Technal aluminum profiles, Saint Gobain Low-e glass and Geze auto-revolving doors
- Completion time: 2010

curtain wall systems, Technal aluminum profiles, Saint Gobain Low-e glass and Geze auto-revolving doors

ADMINISTRATIVE CENTER OF BINH DUONG PROVINCE

- Address: Binh Duong Industry
- Service - Urban Area - Ho Chi Minh City
- Investor: Investment and industrial development corporation Project using Semi
 - Unitized curtain wall, doors, outward and inward opening windows
- Completion time: 2014

PARLIAMENT OFFICE IN DA NANG

- Address: Hoàng Sa Street, Da Nang City
- Investor: 789 Company
- Project using Eurowindow aluminum doors, inward and outward opening windows, turn and tilt in window, partition.
- Completion time: 2016

HEADQUARTERS OF QUANG BINH PROVINCE PARTY COMMITTEE

- Location: Dong Hai, Quang Binh

HEADQUARTERS OF LAI CHAU PROVINCE AGENCIES

- Location: Lai Chau Town, Lai Chau Province
